COMPLIANCE ASSESSMENT

Assess where your organization currently stands on GDPR compliance and prepare your organization for GDPR compliance programs.

Dashboard which provides you a clear view of your compliance assessment result in an interactive format, thereby making continuous compliance as easy tasks.

Recommendations are available to point out the best solutions for your organization.

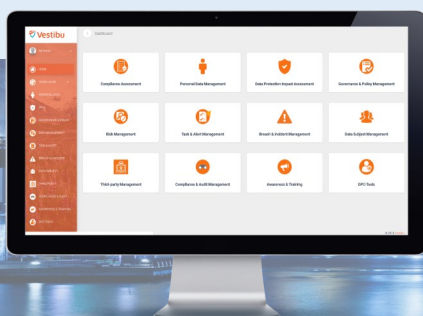

Questionnaires and explanations are provided to guide you to map and understand the requirements.

Intuitive report which clearly highlights your strongest and weakest areas for data protection against the regulation.

The questionnaire form asks 'Does your company completed the policy or procedure for personal data transfers into and out of the EU or to third country?'. It features a progress indicator at the top, a question, and several input fields for 'ARTICLE 18', 'ARTICLE 17', and 'ARTICLE 19'. Below the question, there are sections for 'Attachments' and a 'NEXT' button.

Vestibu Compliance Assessment will help you to plan and prepare for your EU GDPR compliance program, so you can identify the gaps, track, view and also monitor the progress. Assess your organization's readiness for GDPR compliance programs. Understand the regulation and know exactly where your organization's stand for compliance.
