# GOVERNANCE & POLICY MANAGEMENT

Govern your company and manage all of your GDPR related policies and procedures that you can customized in one place and house it along with all relevant information.

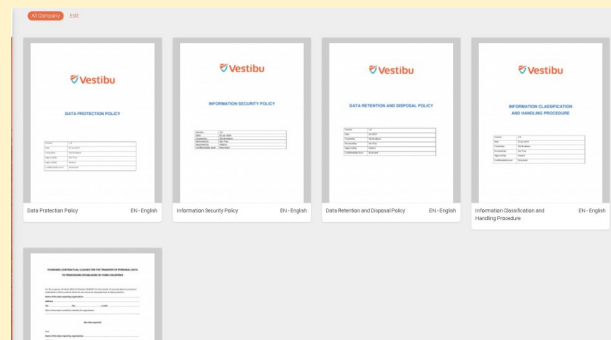

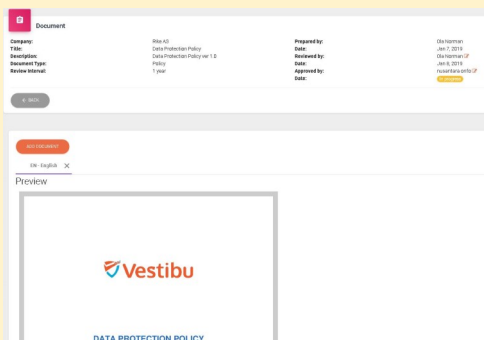

**Manage documentation** of all your compliance policies, procedures, guidelines, agreements, notices, etc.

**One centralized place**, keep and store your compliance in one place, to avoid scattered documentation when you need it anytime or during the audit.

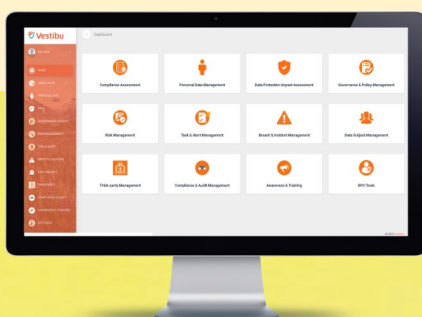

**Document templates** are provided to save your time and efforts to create and manage all EU GDPR documents. Import policy, procedure, agreement, notice and all documents required by EU GDPR from our template database.

**Track and Review** your documentation will make you easier to know which one is the latest document.

**Streamlines** your content creation, and lets you organize your documents easily.

**Vestibu Governance & Policy Management** provides the foundation of your ongoing GDPR work to demonstrate compliance by its function as a document management system to easily create and manage all necessary documents related to EU GDPR compliance.
