Vestibu

Your EU GDPR Compliance Partner

BREACH & INCIDENT MANAGEMENT

BREACH & INCIDENT MANAGEMENT

Designed to systematically build to maintain and document information, evaluation and notification processes on a breach and incident case in your organization.

Comprehensive Breach & Incident dashboard provides you with information and response progress to ensure your team to resolve the case and report it to the Data Protection Authority (DPA) before the deadline.

Alert your stakeholders and team member when a breach occurred and manage to resolve the incident immediately.

Get visibility via Breach & Incident lists on your personal data breach & incident cases. Understand the type, impact, severity, and status for each breach and incident when you investigate a data breach.

Detailed analysis, evaluation, investigation and reporting processes will guide you to handle breach and incident quick and efficient.

Breach & incident report are provided to help you with reporting requirement about personal data breach to the Data Protection Authority (DPA) and to inform your affected data subjects.
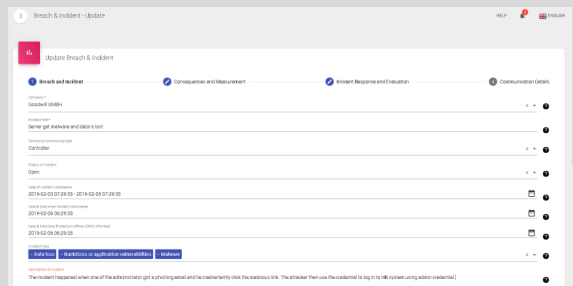

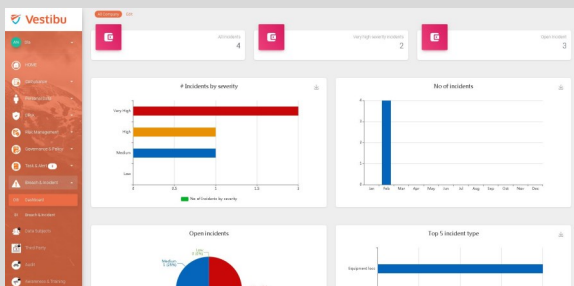

Vestibu Breach & Incident Management will help you to plan, investigate and prepare for your EU GDPR compliance program when you have to report a breach and incident to Data Protection Authority (DPA) within 72 hours deadline.
